

Music Therapy Association of Minnesota Music Therapy Observation List

The purpose of this music therapy observation list is to be a resource for students and interns who are seeking an opportunity to observe a board certified music therapist in practice. The music therapists listed have indicated that they are willing and able to have student observers.

This list is for limited time observation opportunities only, **NOT** for practicum or internship placements. MTAM will not be involved in scheduling observation sessions. **Students and interns are responsible for contacting music therapists directly and arranging their observation sessions.** Music Therapists whose information is included on this list may accept or deny student observations based on therapist availability or any other considerations that may affect the client/patient's therapeutic experience.

Please contact NewsletterMTAM@gmail.com with any questions you may have.
